The dance traditions of Russia and the Ukraine are extraordinarily rich and varied: they include matriarchal round dances from the Russian heartland, dances of semi-lawless Cossacks from the borderlands, polyphonic village stamping, ballroom dances of 19th century Russian nobility, and Carpathian Mountain dances of western Ukraine. The music and songs that accompany them are full of life and soul. Come join us for a weekend of learning from these traditions, and come take your place in a circle of folk dance enthusiasts from around the Southeast.

Erik Bendix

Erik Bendix has been folk dancing since he was a boy of 10 at an international school in Europe, and has taught folk dance workshops for 37 years. He has been collecting Russian and Ukrainian dances for most of that time, and is thrilled to have a chance to share them.

Erik's dance interests embrace everything from Chinese martial arts to Mevlevi dervish whirling to Balkan village dance collected on trips to Bulgaria and Macedonia. He has played a pivotal role in reintroducing folk dancers in Western Europe to live music, and has been active in recent years in the revival of nearly lost traditions of Yiddish dance.

Erik was also co-founder of Mountain Playshop, which started in 1984.

25th Anniversary

Mountain Playshop 2009

MOUNTAIN PLAYSHOP is a regional dance weekend that attracts dancers from around North Carolina and nearby states to socialize, dance, and relax. You might even learn a dance or two. For 25 years, Playshop has provided both a forum for dancers to learn new material from regional and professional teachers while also offering a beautiful destination for dancers to simply get together with friends to play for the weekend - partying, dancing, sharing meals, reviewing dances, and just plain relaxing in the shade of the Smoky Mountains. This year is no different. Come prepared to sample a few new dances, but come expecting the unexpected. That's why we call it Playshop!
